

# THE ONE

YACHT & DESIGN

*The Art  
of Sailing*

Officina Italiana Design has been the pen behind every single Riva motoryacht since 1994 and is busier than ever these days. After the recent launches of the Domino 88' and Florida 88' followed up by the splashing of the 122' Mythos flagship, the Bergamo studio is now hard at work on the design of a new 50-metre-plus full-custom line announced by Riva at the last Monaco Yacht Show. This new series is the iconic brand's opening volley in the superyacht segment, to which it is entirely new. The steel-built customs start at 50 metres and will go all the way up

to 100. The displacement hull has sleekly dynamic lines and a clean, cool design. A variety of layouts is on offer for the interiors, which are fully customisable. The owner will, in fact, shape them hand-in-glove with Officina Italiana Design. There are many very generous relaxation and communal areas including a sundeck with Jacuzzi and freestanding furnishings. The transom opens out to form a water-skimming terrace, while a floodable garage hosts a tender of just under six metres.
